June 15, 2023

The SIF information for this release is effective July 5, 2023.

Definition of Lead Times
* 10-Day or Less (*): Products will ship in **10 business days or less** from order acknowledgement.
* 20-Day or Less(+): Products will ship in **20 business days or less** from order acknowledgement.
* Assigned (@): Products may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

All 10-day products/flags will be reflected in the 10-day catalogs. The standard catalogs will contain the 20-day and assigned lead-time products.

Opt File
04   will contain:
10   10-day or less lead time
20   20-day or less lead time
99   assigned lead time

Key File
P4   will contain:
10   10-day or less lead time
20   20-day or less lead time
99   assigned lead time

All fields listed below will contain the following flags:
*   10 day or less lead time
+   20 day or less lead time
@   assigned lead time

Top File
        is flagged according to the shortest lead time available
SL   within that product.
        Example, if there are 2 PD's for that SL, one with a +
        and one with an @, there would be a + in the SL field.

        If the 2 products were both @, then there would be an
        @ in the SL field.

Key File
PD   is flagged according to the lead time for the base product number.

Opt File
OD   is flagged according to the lead time for the specific option.
