## 1. INTRODUCTION

Configura's Extension Review was created to make sure our CET users have the best experience possible, regardless of the Extension they are using. The goal is to create a more uniformed experience across Extensions when it comes to common functionality when creating a drawing.

Partners should prepare their Extension based on these guidelines in this document and as if their Extension was ready to release before submitting for a review. Upon submitting your Extension for review, a Quality Assurance Analyst will review your Extension and give your Extension a green (pass), yellow (pass with issues) or red (fail) for the following categories:

- Installation and Smoke Test
- User Interface
- Usability Test
- System Test
- Performance Test
- Marketplace

If you have Administrator access to your Jira project, see link below on how to add more users.

**Link:** [Add users to your project](#)

Have additional questions? Please see our FAQ for the Extension Review or contact your Configura Account Manager.

Having question on using/ migrating to new CET features? Use this link below for migration guides or help articles.

Alternatively you can reach out to [\*\*devsupport@configura.com\*\*](mailto:devsupport@configura.com) for assistance.

*Disclaimer: Product rules are not covered in this review.*

## 2. INSTALLATION TEST AND SMOKE TEST

During this portion of the review, your Extension will be assessed for installation and for critical functionalities. When completing this test, it is based on a user running on Latest Windows Edition and that the Extension can be installed with other Application Extensions and Utility Extensions except for Catalogue Creator, CET Developer or QA Tools.

**Your Extension will receive one of the following scores for this section:**

**Pass [Green]:**

- Extension passes all tests.

**Pass with issues [Yellow]:**

- Crash detected by debug menu that is not easily reproducible.

**Fail [Red]:**

- Extension fails any of the tests except LOD issue.

ITEM #	CHECKLIST	RESULT	COMMENT
1	Installation of the Extension with the <b>latest</b> CET <b>core</b> version and <b>correct</b> CET <b>edition</b> should be successful.	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	

2	Catalogues download automatically. Snappers update automatically without needed to refresh.	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	
3	Visible icons when each toolbox is clicked on.	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	
4	When using debug menu (Ctr + Alt + F12), inserting snappers should not cause any crash.	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	
5	Create a simple drawing, save, and reload drawing. Edit, save, and reload drawing again.	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	
6	<p>Look for any obvious performance issue(s) for example slow to move an item, slow to pan or zoom in/out.</p> <p>Use model performance tool (QA Tools) to check if the models have Level of Details (LOD).</p>	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	

**INSTALLATION AND SMOKE TEST RESULTS:**

**Pass**

**Pass with issues**

**Fail**

### 3. USER INTERFACE

During this portion of the review, your Extension will be assessed on its user interface. The goal of this test is to determine if your Extension is easy to understand and navigate.

**Your Extension will receive one of the following scores for the User Interface section:**

**Pass (Green):**

- Extension passes all tests.

**Pass with issues (Yellow):**

- The User Interface does not affect the user's ability to create a drawing.

**Fail (Red):**

- The icon does not represent the product.
- The User Interface is not easy to understand and affects the user's ability to create a drawing.
- The latest properties box is not used (Applicable to New Manufacturer Extension).

ITEM #	CHECKLIST	RESULT	COMMENT
1	Make sure product lines on tabs look organized. Tabs should look consistent throughout the extension. Filter should be available if there are too many products on one tab.	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	

ITEM #	CHECKLIST	RESULT	COMMENT
2	Link(s) to manufacturer information should be available at the top of the main manufacturer tab.	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	
3	Make sure the icon size is consistent.	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	
4	Make sure there is no horizontal scrollbar in the toolbox.	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	
5	Make sure the icons are aligned on the same row.	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	
6	Click on each toolbox and make sure the overall user interface looks good. For example, text size, icon size and button should be consistent. Overall branding makes sense: logos, text, etc.	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	

ITEM #	CHECKLIST	RESULT	COMMENT
7	Tabs collapse when browsing items on component tab.  Tabs collapse in Extension correctly.	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	
8	Tooltips and help texts should be readable.	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	
9	Animation properties and properties box: <ul style="list-style-type: none"> <li>• New version property box is used.</li> <li>• Properties are understandable.</li> <li>• No property boxes flicker.</li> <li>• Properties do not overlap each other.</li> </ul>	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed <input type="checkbox"/> Not supported	

**USER INTERFACE TEST RESULTS:**

**Pass**

**Pass with issues**

**Fail**

## 4. USABILITY TEST

The purpose of usability test is to evaluate how easy to use and user-friendly an extension is and check if there are any noticeable issue(s) that block a user from creating a drawing. Quality Assurance Analyst will perform this test by creating a drawing that consists of cabinets, covers, fillers, sink and taps, worktop, and appliances.

**This section will be scored by the following:**

**Pass [green]:**

- User can create a drawing in a fast and easy way.

**Pass with issues [yellow]:**

- Issues with workaround.
- Refresh issues but F5 can be a workaround.
- Minor selection issues in 2D/3D view.
- Minor graphic issues in 2D/3D view unless it affects the creation of drawing.
- Minor property box issues that do not affect the creation of drawing.
- Minor animation properties issues that do not affect the creation of drawing.
- Minor snapping issues that do not affect the creation of drawing.
- Customer Own Material (COM) is not working.
- View modes does not work.
- Cabinets are rendered wrongly, especially with materials applied.

**Fail [red]:**

- Crashes for common user scenarios or easily reproducible crashes.
- Basic steps to create a drawing are not successful.
- Significant performance issues that affect the creation of drawing.
- Significant issues in applying finishes and affecting the bill of material.
- Calculation and order export issues that will affect the bill of material or quotation.
- The latest PropsScheme or Catalogue Driven Scheme manager is not used (Applicable to New Manufacturer Extension).
- Standard categories are not used and duplicated categories.
- Inaccuracy of automatic dimensions in 2D view.

ITEM #	CHECKLIST	RESULT	COMMENT
1	<p><b>Cabinets</b></p> <p><u>General Behavior</u></p> <ul style="list-style-type: none"> <li>• Place <b>cabinets</b> in different common configurations.</li> <li>• Make sure different types of cabinets snap to all types of walls in 'Architectural' and can <b>snap</b> to all types of cabinets to form a common kitchen layout (<i>depending on the product rules</i>). Verify proper connection in Group select mode.</li> <li>• Property box and animation <b>properties</b> should be intuitive.</li> <li>• Top cabinets that are meant to attach on walls should start with a <b>default elevation</b> value.</li> <li>• Cabinets should start with <b>default material</b> finishes.</li> <li>• Default <b>toe-kick</b> and <b>moulding</b> should be present upon placement.</li> <li>• <b>Stretching</b> the cabinet vertically and horizontally works fine in 2D and 3D.</li> <li>• The other cabinets should change its position and <b>adapt</b> itself in a row if the middle cabinet was stretched wider or narrower.</li> <li>• <b>Rotating</b> the cabinets should rotate the other connected cabinets in a group.</li> </ul>	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	

- When snapping/disconnecting many cabinets together, the toe-kick and moulding should **self-adjust** when necessary to form an appropriate look and finish.
- Automatic **dimension** should be present in 2D view upon placement of cabinets.

#### Inserts

- Test applying loose inserts into cabinets. It should fit in the correct dimension and does not leave any obvious gaps.
- Test stretching the cabinet, it can either be blocked or the inserts will adjust itself to fit. *(Example, cabinet becomes narrower, the drawer, door inserts also follows)*
- Double clicking on any cabinets, should bring up Insert dialog, test the same as above.
- Removing inserts is possible.

#### Covers and fillers

- Place side and back covers, it should snap to the sides and back of a cabinet.
- Place fillers, it should snap to the different edges of the cabinet.
- It can be stretched to adjust its height or width.

ITEM #	CHECKLIST	RESULT	COMMENT
2	<p><b>Worktops</b></p> <ul style="list-style-type: none"> <li>• Worktops comes in its own <b>view mode*</b>.</li> <li>• Worktops can <b>only be placed and worked on</b> in Worktop view mode*.</li> <li>• Place worktops on cabinets and make sure it should snap properly.</li> <li>• Worktops should adjust itself to the top shape of the cabinets, no extra pieces or parts shall be generated.</li> <li>• The <b>material finishes</b> of the worktop can be changed.</li> <li>• Advanced worktop tools to allow <b>custom shaping</b> of edges or curves, cutouts.</li> <li>• Correct <b>adaptation and alignment</b> of worktop when a new cabinet is snapped to existing, joints should look well connected.</li> <li>• Worktops should not generate any form of <b>overlapping graphics</b> / z-fighting.</li> <li>• Worktops <b>can be removed</b> and does not leave any traces in 2D and 3D view.</li> </ul> <p><i>*Depending on manufacturer</i></p>	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	

3	<p><b>Sinks and Taps</b></p> <p><u>Sinks</u></p> <ul style="list-style-type: none"> <li>• Add sinks. Sinks can be snapped on the cabinet itself.</li> <li>• Possible to change horizontal or vertical <b>alignments by applying offsets</b> to sinks in the quick properties*.</li> <li>• The <b>material finishes</b> of the sink can be changed.</li> <li>• Check if sink still work after/before placing a worktop on the cabinet. (<i>Check how the sink and worktop integrate in 2D and 3D view</i>)</li> </ul> <p><u>Taps</u></p> <ul style="list-style-type: none"> <li>• Add taps. Check if taps can be snapped on the cabinet with or without sinks*.</li> <li>• Taps can be snapped and disconnected.</li> </ul> <p><i>*Depending on manufacturer</i></p>	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	
4	<p><b>Appliances</b></p> <ul style="list-style-type: none"> <li>• Add appliances. They should snap side by side with the cabinets. (<i>Ranges, Refrigerator, Washer</i>) *</li> <li>• Smaller built-in appliances should snap in the cabinet. (<i>Built-in microwaves/ovens</i>) *</li> <li>• Hood and fans should snap high up of the cabinet.</li> <li>• Slabs and stove should snap on the cabinet itself.</li> <li>• Check if slabs and stove work with or</li> </ul>	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	

	<p>without a worktop on the cabinet. (<i>Check in 2D and 3D view</i>)</p> <ul style="list-style-type: none"> <li>• The <b>material finishes</b> of the appliances can be changed.</li> <li>• Rotation of cabinets should also rotate the snapped appliances in a kitchen layout.</li> </ul> <p><i>*Depending on manufacturer</i></p>		
5	<p><b>Bath</b></p> <ul style="list-style-type: none"> <li>• Make sure Cabinets are not placed on the floor.</li> </ul>	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	
6	<p><b>Apply Finishes</b></p> <ul style="list-style-type: none"> <li>• Compare <b>Scheme manager</b> with PropsScheme or Catalogue Driven Scheme. Refer to FIKA, wall settings. The interface should look similar.</li> <li>• Apply any existing scheme. Create new scheme and rename, apply finishes to all known items, apply to all, selected group or tagged.</li> <li>• Apply all finishes either from scheme manager or property box so there are no undecided options and no incomplete specs.</li> <li>• Check that proper category name is assigned to their materials in MaterialExplorer (if any).</li> <li>• Use COM's on scheme manager or on catalogue symbols.</li> <li>• Check materials are using <b>PBR Materials</b>. Try with rendering.</li> </ul>	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed <input type="checkbox"/> Not supported	

ITEM #	CHECKLIST	RESULT	COMMENT
7	<p><b>Elevation view</b></p> <ul style="list-style-type: none"> <li>• Create <b>Elevation</b> using the Elevation view tool from extension.</li> <li>• Generate any kitchen layout or cabinet elevations if available.</li> <li>• Change visibility settings on elevation.</li> <li>• Make changes to the drawing and update the elevation view again.</li> </ul>	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed	
8	<p><b>Visibility</b></p> <ul style="list-style-type: none"> <li>• Check that the <b>default categories</b> are assigned to all symbols.</li> <li>• Apply different category to symbols.</li> <li>• View the drawings or products in different <b>view modes</b> (Normal, Cabinet, Countertop, Toekick, TAGS, view all).</li> <li>• Test <b>Ind. Tags</b>: locking and unlocking, moving, changing in styles, showing up on view modes.</li> <li>• Check categories are assigned to <b>Ind. Tags</b>.</li> <li>• Test content filter.</li> </ul>	<input type="checkbox"/> Passed <input type="checkbox"/> Passed with issues <input type="checkbox"/> Failed

## 5. SYSTEM TEST

During the System Test, your Extension will be assessed on the integration between your Extension and CET core functionalities.

**This test will be scored on the following criteria:**

**Pass [green]:**

- All tests are passed without major issues.

**Pass with issues [yellow]:**

- Issues with workaround.
- The Extension does not work well with multilevel.
- Copying over symbol on single select will select all connected symbols.
- Lighting products in Extension is not using Physical light.
- The non-working function is not used by this extension user.

**Fail [red]:**

- Crashes for common user scenarios or easily reproducible crashes.
- Does not support Associative Dimension.
