

Knoll Design and Specification Update Report for February 2025

General Notes:

The February release include new pricing that went into effect on February 3rd, 2025. For Office products the scope of the increase includes a 1% increase to all veneer grades, and a few select products in Divideds. KnollStudio pricing is being transformed to follow a module pricing approach. This impacts many products, including all split upholstered products, products with base finish options such as Polished Aluminum, Stainless Steel, Bronze and Gold Plated. This change will also impact historical pricing for KnollStudio. All attempts have been made to ensure historical pricing will be equal to or lower than the current historical pricing. Split upholstered products will no longer adhere to the rule of the highest grade selected between the seat, back and arm.

Below is the new price zone mapping.

Knoll Office

Zone 1 2/3/2025

Zone 2 7/1/2024

Zone 3 7/5/2023

Zone 4 10/3/2022

Zone 5 2/15/2022
