LIBRARY SPECIFIC REVISIONS:

Price Increase

We want to provide you with advance notice of a price adjustment on our KI product portfolio, which will take effect on September 3, 2025. This adjustment is necessitated by sustained increases in operating costs since our last price revision in October 2022. The price increase will vary by individual product across the KI portfolio equating to a blended rate of approximately 5.5%. This adjustment aligns with inflationary rates for materials, labor and general operating costs over the past 3 years.

Introducing Clamber Tiered Seating:

Clamber tiered seating by KI sparks movement, collaboration, and creativity with modular design for dynamic learning spaces.

KTU – Tributaire

All tables that had the option for a single power module / grommet (30" - 36" deep that were 60" - 72" long) are changing to offer two power modules. The power module / grommet types for the power picks are staying the same (for example, pick MA1 will be replaced with MA2).

Effected table models:

Fixed: TJGAA3060, TJGAA3066, TJGAA3072, TJGAA3660, TJGAA3666, TJGAA3672

Nesting: TJGLA3060, TJGLA3066, TJGLA3072, TJGLA3660, TJGLA3666, TJGLA3672

The locations of the two grommet cutouts are changing from being centered depth wise and staggered length wise to being staggered depth wise and centered length wise.
