

News & Changes

Model Lab

- Added a new control option for DWG import, **Surface tolerance**. This setting changes the resolution of curved surfaces to help avoid them looking faceted.

Bugfixes

- Fixed problem with Catalogue Creator that could cause Material conversion to disregard the actual size of the material image when determining DPI/Resolution.
- Fixed problem with Catalogue Creator that would cause a duplicate dialog to pop up when pressing Enter after typing in “-“ in the version field.
- Fixed problem with Catalogue Creator that could cause some model layers to turn black.
- Fixed problem with the Products toolbox in the Catalogue Creator, that could cause bad performance drops when checking/unchecking visibility for columns.
